NEW YORK, N. Y. 10023

ANNUAL REPORT
OF THE
OFFICERS
OF THE
TOWN *of* MONTEREY
MASSACHUSETTS

FOR THE
YEAR ENDING DECEMBER 31
1922

College of Police Science
The City University of New York

235 EAST 20TH STREET
NEW YORK, N. Y. 10003

OREGON 7-1133

This file of Monterey town reports has been a pleasant collecting hobby for over fifteen years. It has taken that length of time to assemble this collection which is to be bound in eight volumes and deposited in the Monterey Public Library.

The set covers the years 1863 thru 1965 and includes the reports of the Southern Berkshire Regional School District after that organization was formed.

For some years it was thought that the 1893 report, that had been found among Andrew Hall's papers, was the earliest to be published. Then Nina and Della Tryon located a series of earlier reports in their collection, the first being the 1888 report.

Before concluding that 1888 was the first town report to be printed we wrote the Massachusetts State Department and learned that a complete file for the years 1863 thru 1887 was in existence and in the State Library. All were in printed form except 1871 and 1875. The full set was very generously loaned by the State Librarian for copying.

It is now probably correct to assume that there were earlier reports than 1863 that were printed. By the time Monterey was incorporated, in 1847, it was the usual procedure with Massachusetts towns to print the town reports. It is the hope of the Monterey Historical Society that the search will continue and that as earlier reports are found they will be added to this collection.

Many people in town have assisted in this project. Special appreciation is owed to Della and Nina Tryon and to Mr. and Mrs. Julius D. Miner. The binding, which will be done in Portugal, is the gift of Ida Brewer Washburn and Howard D. Washburn in recognition of very pleasant years in Monterey.

JOSEPH H. JOHNSON,
Assessors of Monterey.

REPORT OF LIBRARY.

The library has had a very successful year; a large number of books and magazines have been taken out.

We wish to thank interested friends for gifts of a store, store pipe, wood, money, books, also books and magazine subscription from the State Library Commission.

The Women's Educational Association loaned us another box of books for use the coming year.

A food sale was held at the library in August, by the trustees, and netted \$56.80, a part of which was used to give the library a much needed coat of paint, the remainder being added to the building fund.

We wish that the schools might show more interest in using the reference and juvenile books of which we have a very good assortment.

- An appropriation of \$125 is asked for the ensuing year.

JOSEPHINE T. JOHNSON, Chairman.

Treasurer's Report.

REPORT OF SUPERINTENDENT OF SCHOOLS.

To the School Committee and Citizens of Monterey :—

I herewith submit my first annual report of your schools.

TEACHERS

You are indeed fortunate to be able to retain Miss Martin so long in the Monterey Center school. Her school shows the good work that she has done. The pupils seem much interested in their work and have a real desire to learn. This spirit is a wonderful asset in a school room.

The committee secured Miss Mary Gould for the Corashire school. The great improvement which has been made in this one term proves that the committee chose wisely. This school has been badly handicapped by lack of equipment.

REPAIRS

The Corashire school is in great need of extensive repairs. The paint on both the inside and the outside of the building is poor. The desks are old and uncomfortable. During the christmas recess the room is to be re-finished, and we hope to have new desks early in the year. Next summer, both buildings should be painted on the outside. The stove at the Monterey Center school smokes when the wind blows hard. Some time ago the chimney was repaired, but this does not seem to have entirely remedied the trouble. It is not only injurious to the children, but also causes loss of time.

BOOKS

The Beacon System of Reading has been introduced into one school and will be placed in the other school next fall. This system gives the child a better grasp of phonetics which is the key to the pronunciation of many of our words, than any other system I have ever used.

Other reading material should be purchased so that every child shall have an opportunity to read three or more readers of one grade before being rushed into something much harder.

ATTENDANCE

While the attendance of most of the pupils has been good, it is possible to improve our records. Parent should realize that a day of school lost to the child is something which he can never wholly regain.

CONCLUSION

It has not been possible for me to meet many of the parents and other citizens during the short time I have been working with you. I hope that as time goes on I may meet more of you and become acquainted. It is only by working together that we can hope to receive the most from our investment in our schools. Please do not wait for a formal introduction. I shall be glad to talk with any of you whenever possible about ways and means of making our schools better.

I wish to express my thanks to the School Committee and Teachers for the hearty support which they have given me in my work.

Respectfully submitted,
CHARLES E. VARNEY,
Superintendent of Schools.

MRS. JESSIE BIDWELL, Treasurer.

REPORT OF MONTEREY FREE LIBRARY.

The library has had a good circulation of books the past year and has purchased more new books than last year. The state library commission gave a good selection of juveniles and subscriptions for several magazines. The Woman's Educational association loaned another good assortment of books.

We added \$50, a part of the sum received from the costume dance, to our building fund, and hope we can do the same this year. We would be very glad to have the schools make use of any of the books or magazines.

JOSEPHINE JOHNSON,
Chairman of Trustees.

REPORT OF SUPERINTENDENT OF SCHOOLS.

To the School Committee and Citizens of Monterey:

I herewith submit my second annual report of your schools.

During the last school year we were working out a course of study for the schools. This work was put in shape and copies made for the teachers during the summer vacation. This course of study allows grouping of grades in certain subjects, thereby giving the teacher less classes and more time to devote to each. We shall watch the results carefully and make such changes as may appear best.

I wish that all of the citizens might visit the Corashire school to see the school room with its new desks and bright newly-painted walls and ceiling. It does not seem possible that it can be the same school room we entered in the fall of 1922.

We should now paint the Center school room and make it as attractive as the one at Corashire is. Both of the school houses need to be painted on the outside. If possible, one should be painted next summer and the other the following year.

The stoves in the schools have been jacketed. This gives a more even heat over the rooms. The changing of the location of the Center stove to the corner of the room near the chimney has given it a better draft. We believe that now it will not fill the room with smoke as it did at times before.

Some new books have been purchased. These have given the pupils new incentives to work. Most of the pupils are careful of their books, but now and then we find a careless pupil. Such pupils should always pay for books injured with money earned by their own efforts. We should purchase at least one new set of readers for each grade and new language books for grades five and six.

The parents may help us much in our work by making sure that their pupils are regular and punctual in attendance. The pupil who comes in late or who loses time by absence is not only injuring himself, but the whole school.

In closing, I wish to thank the school committee, the teachers, and other citizens who have helped to make our schools better.

Respectfully submitted,

CHARLES E. VARNEY,

Superintendent of Schools.

REPORT OF SUPERINTENDENT OF SCHOOLS

To the School Committee and Citizens of Monterey:

I herewith submit my third annual report of your schools.

Our new outline course of study has now been in use for one and one-half years. It has helped to make our work more nearly uniform and to bring it nearer to a satisfactory standard. We have replaced more of the old and worn out books with new ones. These two factors have done much to raise the scholarship in both schools.

At the close of the spring term both Miss Julia Martin and Miss Mary Gould resigned. Miss Martin wished to enter normal school to better prepare herself for the important work of teaching. Her many friends will be pleased to know that she is giving her usual energy to her work and is considered one of the best students in her class.

We were fortunate in our choice of teachers to fill these vacancies. Mrs. Emma Heath, the teacher at the Center school, is a graduate from New Paltz Normal school and has had experience in grade teaching. Her methods are excellent. This fall, Miss Elizabeth Jenkins of the North Adams Normal School visited all of my rural schools. She was especially well pleased with Mrs. Heath's methods of conducting recitations. Miss Beatrice Barnum, teacher of the Corashire school, taught successfully last year in the West Stockbridge district and has attended North Adams Normal summer school. She is energetic and inspires within her pupils a desire to do their best. Miss Jenkins complimented her upon her orderly school and her good housekeeping. You may search the whole state, but you cannot find a neater or more orderly rural school.

The attendance this year has not been satisfactory. I always feel that anything below 95% attendance during the fall term is unsatisfactory unless caused by an epidemic. We have had some sickness but not enough to have so reduced our attendance. The average for the Center school was 89.45% and at the Corashire school, 88.14%. This handicaps the work of the teachers and pupils very much. The rural school teacher with her many grades has enough to do without repeating work for pupils who have been absent because of some inexcusable reason. Parents who allow their children to stay out of school or to be habitually tardy for slight causes are doing them a great harm. Beside this, they handicap those pupils who are regular and punctual in attendance. You would not steal the other fellow's money, why steal his time?

I wish to call your attention to the excellent work being done for the health of our pupils. The following report of the work has been submitted to me by the school nurse, Miss Marion Woodbury,

R. N. The nurse has made forty visits, including four with the school physician, to the schools during this year. Thirty-eight visits have been made to the homes of the children. There has been but one contagion this fall, and that was quickly cleared up. All of the children have been vaccinated. A contest in health habits has been carried on with keen interest. Out of seven children who were more than 10% under weight in September, four gained in two months, leaving only three of them still under weight. Only one pupil who was of normal weight in September lost, so there are only four pupils in the schools of Monterey who are now more than 10% underweight. This is a fine showing for the year's work. Healthy, happy children can do more and better work than others.

During the summer the Center school house was painted and the interior, redecorated. Fifteen new movable desks have been purchased to replace the old double desks. There were nine single desks in good condition which were retained. Those who have visited the school since these repairs were completed know how much more attractive and healthful the school now is. Next summer both school buildings must be shingled, and the wood shed at the Corashire school, repaired. When these things are done, the general repairs on the school buildings will have been well taken care of. Both of the schools have jacketed stoves and window screens and adjustable desks. But unless the town is looking forward to the consolidation of its schools at the Center building within a few years, we should make plans to improve the lighting and to replace the old out-of-door toilets with those which may be entered from the school room.

Appropriations for 1925

Monterey has always appropriated a certain amount for the schools and allowed the balance on hand and the reimbursements from the state to be turned in to the schools. This is not in accord with the law of 1920. I, therefore, recommend that the town raise and appropriate the entire amount needed for its schools, and that all balances, reimbursements, and other funds be turned into the general treasury. At first, it may look to some as though we were increasing the amount of local tax for schools, but a careful study will show that this year it will be less.

Summary of Receipts and Expenditures for 1924

Balance, 1923,	\$ 880.28
Town appropriation,	3,500.00
State reimbursement for high school transportation,	160.50
State reimbursement for superintendent,	397.70
State reimbursement for teachers,	300.00

Miscellaneous,	10.00
Total receipts,	\$ 5,248.48
Total expenditures,	4,527.09
Balance on hand January 1, 1925,	\$ 721.39

We need for the Monterey schools for 1925, \$4,500.00. This is the amount which the town should vote to raise and appropriate. To find out the actual local cost, we must subtract our balance this year, \$721.39; the following reimbursements which will be received from the state in 1925, Superintendent, \$397.70, Teachers, \$250.00, and about \$75.00 for high school transportation or a total of \$1,444.09. This leaves an actual balance of \$3,055.91 to be raised by local taxation.

In closing, I wish to thank the Committee, Teachers, and all Citizens who have cooperated with us in our efforts to make our schools better.

Respectfully submitted,

CHARLES E. VARNEY,

Superintendent of Schools.

January 2, 1926.

REPORT OF MONTEREY FREE LIBRARY.

We have added to the library during the year 81 volumes; 13 were donated by the state, 9 by individuals, and the remaining 59 purchased with money available from the appropriation.

We have ten magazines. The state gives us The National Geographic, America's Forest and Forest Life, Popular Mechanics, and The Woman's Home Companion; gift by friends of House and Garden. We subscribe for World's Work, and The Delineator; Our Dumb Animals, Bird Lore, and How to Sell come from the publishers, and Henry Ford has the Dearborn Independent sent to us.

For over 30 years a traveling library of 50 books has been coming to us to keep for a year, and then exchange for a fresh one. Miss Alice Chandler, who has had charge of this work, because of advanced years, has been compelled to give it up, and there seems to be no one to take her place, so our last box of books has been sent back to the Boston library.

The circulation this year has been 1710 books, not counting magazines. Through all the years since, with the help of the state, we started the library, our summer townspeople and guests have greatly enjoyed and appreciated it, often expressing surprise at the high standard maintained in choice of books. The tax they pay for the privilege of drawing books takes care of our running expenses during the summer.

We have received from the state this town's share of the soldiers' bonus money, amounting to \$170.65, and we are holding it in the bank for the present.

Our building is too small, many books have to be tucked away where it is not convenient to get to them. We are looking forward with longing to having an adequate and safe library building on the green.

THE LIBRARY TRUSTEES,

Mrs. Jessie T. Bidwell, Pres.

REPORT OF SUPERINTENDENT OF SCHOOLS.

To the School Committee and Citizens of Monterey:

I herewith submit my fourth annual report of your schools.

We were fortunate this year in retaining both of our teachers. I am well pleased with the work which they are doing under the existing circumstances. The pupils are showing a greater interest in their work as is evident by a comparison of the attendance of the fall term, 1924, and the fall term, 1925:

Center School, fall term, 1924, 89.45%.

Center School, fall term, 1925, 91.79%—gain, 2.34%.

Corashire School, fall term, 1924, 88.14%.

Corashire School, fall term, 1925, 96.94%—gain, 8.80%.

We hope that this fine gain in attendance over last fall may be maintained for the rest of the year.

During Educational Week, several of the parents and other citizens visited the schools. We cordially invite citizens to visit us at any time and learn just what we are striving to do. Schools, like everything else, have changed since we were children. A visit will give you a better idea of the present-day school and also make it plain to you why it is not very interesting to have a class of one or two pupils. You will also better understand that it is almost impossible to arrange a good program of work in the school of many grades. Our grouping of classes has done much to help this, but it cannot take the place of a school where each teacher has less classes.

For some time many of the citizens have been considering the consolidation of the schools at the Center. If we are to fit the boys and girls of Monterey to compete with other boys and girls of our state and nation, we must give them the best possible equipment. Less than three per cent. of the children of Massachusetts are now housed in one-teacher schools, and the number is constantly growing less. There are some one-room schools which will probably never be consolidated and have to continue as one-room schools as long as people live in those places. In Monterey the conditions are decidedly in favor of consolidation. A good auto bus driven by a competent man could take the pupils from the Great Barrington line to the Center in a short time. Many people, especially doctors, no longer keep horses, therefore the main road from Great Barrington to Monterey Center must be kept open all winter in order that doctors may come to visit the sick. The actual cost for this better school would be but little more than it is now. Why should not the children of Monterey receive as good an opportunity for an elementary education as do the children in the neighboring town of Tyngham? A two-room school at the Center would give them this opportunity. Our present teachers could do a much higher grade of work if they had the grades

divided between them, and the classes would be larger, thus making the work more interesting for the pupils.

We now have seven pupils in high school. This means an increased cost for high school tuition and transportation. A large part of the high school transportation will be refunded by the state. The cost of high school education will be returned to the town in better-equipped young people. We should feel proud that so many of our pupils can go to high school.

The Corashire school house roof has been shingled this year, as also has one side of the Center school roof. It will be necessary to shingle the other side of the Center school roof this next summer. The Corashire school house should be painted.

The following budget is needed to run the schools efficiently for the year 1926. It is given in detail so that the voters may know what we expect to do with the money for which we are asking:

Teachers,	\$1,900.00
Elementary school tuition,	100.00
Elementary transportation,	777.00
High school tuition,	650.00
High school transportation,	480.00
Books and supplies,	100.00
Repairs,	300.00
Janitors,	60.00
Fuel,	65.00
Health,	50.00
Superintendent's salary and travel,	718.00
Total,	<hr/> \$5,200.00

The increase over last year is due largely to the increased high school attendance. This entire amount should be raised by the town, but the refunds received from the state will all be turned into the town treasurer and therefore the actual cost to the town will be much less than the budget.

In closing I wish to thank the school committee, teachers and other citizens who have helped me in my work during my term of office. I solicit your further co-operation and ask that you come to me freely with any questions or suggestions which may benefit our schools.

Respectfully submitted,

CHARLES E. VARNEY,
Superintendent of Schools.

ARTHUR BARNUM,

JESSIE BIDWELL,

School Committee.

Examined and found correct.
January 18, 1927.

J. L. TWING, Auditor.

REPORT OF SUPERINTENDENT OF SCHOOLS.

To the School Committee and Citizens of Monterey:

I herewith submit my first annual report of your schools.

Inasmuch as I have been connected with your schools only since the opening of school in the Fall, this report will necessarily be brief.

Schools opened in the Fall with the teachers the same as last year. However, unfortunately, we lost Miss Barnum at the end of the first month. Miss Barnum is a big loss to our schools. The children made good progress under her instruction. We were able to secure Mary Ann Larkin of Great Barrington to carry on the work. Miss Larkin is a Normal graduate and has already given evidence of continuing the good work of Miss Barnum. I should say we are fortunate, that both our teachers are Normal trained girls. I hope we shall always consider only Normal graduates for our schools. The instruction in our schools is very good, considering that each teacher has eight grades. They do not complain of the number of classes they have to teach each day, but being conscientious in their work. they regret the many things they must leave undone for the lack of time. There is little time for individual instruction or attention. The teachers realize that each child should go at his own pace of learning; that they should make provision both for the child who learns more slowly and for the one who learns more rapidly than the average. It seems to me for all it would cost the town, the two schools should be in the same building.

The teachers of Monterey and Otis met with the superintendent one afternoon in November at the Center school. The first part of the afternoon was spent in observing Mrs. Heath carry out her daily program. Her work was then criticised by the teachers. During this period many helpful suggestions were brought to their attention. The superintendent gave each teacher a course of study in arithmetic, and some practical suggestions in discipline, assigning lessons, instruction, and securing and holding the attention of the pupils. This meeting gave the teachers an excellent chance to see another do their work.

ATTENDANCE.

Laws: The state laws governing school attendance requires that:

Every child from seven to fourteen years of age, unless he is physically or mentally unfit, and until he is sixteen years of age, unless he has completed the sixth grade, shall attend school ALL the time the school is in session. Every child from fourteen to sixteen years of age shall attend school unless such child has received an employment certificate and is regularly employed according to law at least six hours a day.

If a child fails to attend school according to law for seven day sessions or fourteen half-day sessions, the child shall be considered an habitual truant and may be sent to a truant school.

If a parent or guardian fails to cause the child under his charge to attend school according to law, he shall be fined not over twenty dollars for each offense.

An attendance league has been formed with the Monterey and Tyringham schools. The superintendent has offered a prize to the school that wins the pennant.

The standing of the teams so far this year is as follows:

School	Per Cent. of Attendance
Tyringham Grammar	96.99
Tyringham Primary	96.74
Corashire, Monterey	93.78
Center, Monterey	91.87

The school rooms are very attractive and in good condition. The light in the Center school is poor, due to the lack of window space. This, however, could easily be remedied. The Corashire school house was painted during the summer. The result is very gratifying. The one side of the Center school house roof should be shingled as soon as possible. Some grading is necessary on the school grounds at Center, also.

I would recommend the installation of in-door toilets in the schools. Chemical toilets are proving very satisfactory at South Lee. As the schools are now, it would cost \$600 for each building. If the schools were consolidated, \$600 would cover the entire expense.

The following budget is needed to run the schools for the year 1927. The amount to be distributed as follows:

Teachers	\$1,950.00
Elementary school tuition	160.00
Elementary transportation	750.00
High school tuition	600.00
High school transportation	400.00
Books and supplies	200.00
Repairs	300.00
Janitors	70.00
Fuel	70.00
Health	50.00
Superintendent's salary and travel	738.00
Unpaid bills	157.00
Total	<hr/> \$5,445.00

The increase over last year is due to the unpaid bills at the close of the year 1926. This entire amount should be raised by the town. The state will reimburse the town for a good portion of this amount.

In conclusion, I wish to thank the school committee, teachers, and other citizens who have helped in the work of the schools. I also urge you to visit our schools and interview your superintendent at any time.

Respectfully submitted.

CHARLES A. MILLER, Supt. of Schools.

REPORT OF SUPERINTENDENT OF SCHOOLS

To the School Committee and Citizens of Monterey:—

I herewith submit my second annual report of your school.

During the Fall Term an afternoon teachers' meeting was held in Corashire School for the Monterey, Otis, and Tyringham teachers. The first part of the afternoon was used in observing the teaching of Mary Anne Larkin. Miss Larkin gave an excellent demonstration of organization and teaching in an ungraded school. After a short discussion on the work of Miss Larkin, we studied a course of study in History for the elementary grades. The latter part of the Meeting was a discussion of the recitation from the standpoint of both the teacher and the pupil. We hope to hold a similar meeting in the Tyringham schools this spring.

Miss Larkin's good work won recognition in her native town, Great Barrington, to which place she was called in December. Her promotion was the result of efficient and conscientious work. During her short stay at Corashire, she won the deep respect of both pupils and parents. We were fortunate in being able to secure Beatrice Barnum Phillips to carry on Miss Larkin's work. Having taught formerly at Corashire, naturally she went right to work, thereby avoiding any break in the progress of the school.

The instruction in our schools is of high calibre. The progress being made by the pupils should be encouraging to their parents. Three students are attending high school at this time. There are ten students enrolled in eighth grade this year. At least sixty per cent of this number will enter high school next fall, making a total enrollment of nine students. This means an increased expenditure, but also a bigger opportunity to the children for an education and citizenship training. A fact which cannot be measured in dollars and cents.

Considerable improvement has been made on the condition of the buildings. A new woodshed is badly needed at Corashire. The timber has decayed to such an extent that the old shed is about ready to fall over. Some new slate blackboards have been installed in both schools. More window space has been provided at the center school, thereby remedying a bad situation with respect to light.

The civic committee of the Monterey Cooperative League did an excellent piece of work for the Center School. They have

made the grounds very beautiful, by erecting a stone wall in front, by making the school grounds level so that the children might be able to play, and by securing playground apparatus. The children appreciate their kindness and interest. To much credit cannot be given to Miss Janet Waring for making these needed improvements possible.

The Tyringham Primary School won the Superintendent's prize for the best attendance in the Monterey-Tyringham Attendance League for the school year 1926-1927. The Monterey schools did not fare so well last year, but are showing a marked improvement so far this term. The standing of the schools for the fall term of this school year is as follows:

School	Per Cent	Rank
Tyringham Primary	95.86	1
Corashire	95.57	2
Monterey Center	95.53	3
Tyringham Grammar	92.23	4

The following budget is needed to run the schools for the year 1928. The amount to be distributed as follows:

Teachers	\$ 1,990.00
Elementary transportation	800.00
High school tuition	722.00
High school transportation	450.00
Books and Supplies	200.00
Repairs	400.00
Janitors	90.00
Fuel	80.00
Health	30.00
Superintendent's salary and travel	738.00
Total	<hr/> \$ 5,500.00

In closing, I wish to thank the school committee, teachers, and other citizens for their cooperation in the work of our schools.

Respectfully submitted,

CHARLES A. MILLER,

Superintendent of Schools.

Examined and found correct,
January 18, 1929.

J. L. TWING, Auditor.

We wish to express our thanks and appreciation for the gifts of books received during the year. There has been an increase in the circulation of books, and a continuance of the same appropriation is recommended. We hope everything possible will be done to hasten the erection of the new building, as the present one is so crowded it becomes an increasing problem how to arrange the books so as to be accessible.

MONTEREY LIBRARY TRUSTEES,

Julius D. Miner, Chairman

REPORT OF SUPERINTENDENT OF SCHOOLS.

To the School Committee and Citizens of Monterey:

I herewith submit my third annual report of your schools.

The work in our schools continues to be of high calibre, due to the enthusiasm and conscientious efforts of our teachers. They both enjoy their work and have the interests of their children as their guide. We have tried to make our school rooms a place of joy and happiness to the child, rather than a place of drudgery and unpleasant toil. The teachers study each individual child; his interests, mental capacity, rate of learning, so that she might adapt her work to the child rather than attempt to adapt the child to the work. Education must be fitted to the needs of the individual and the time. All children should acquire the tools necessary for life's training, among which are reading, writing, simple figures, etc. These tools are needed for the use they serve in life; but far more important is the training for right habits, habits of work, habits of health, and the moral and spiritual habits of true living. The young today need a thorough training in the practical things of life.

The school committee continue to improve the school buildings. The biggest improvement of the year was the building of a new wood-shed at Corashire school. Also the new toilets there, which can be entered only from the interior of the building. The teacher and pupils appreciate this excellent improvement. Through the aid of the Anti-Tuberculosis society, we have placed individual drinking fountains in our schools. These are very helpful, especially in a sanitary way.

The Monterey Center school won the superintendent's prize for the best attendance in the Monterey-Tyringham attendance league for the school year 1927-1928. The attendance so far this school year is very good. Our average attendance is 95.58 per cent. The parents evidently realize the importance of teaching children right habits. Give your children every opportunity to be in school every day. Sacrifice at home if necessary, force the child to go if he dislikes school. Both you and your child will be thankful in the end. Help us to enforce the school attendance law for the sake of your children. The standing of the schools for the fall term of this school year is as follows:

Monterey Center School	96.76 per cent.	1
Tyringham Grammar School	96.75 per cent.	2
Tyringham Primary School	94.6 per cent.	3
Corashire School	94.4 per cent.	4

The average for all the schools for the fall term of this school year is 95.62 per cent.

The following budget is needed to run the schools for the year 1929. The amount to be distributed as follows:

Teachers,	\$2,090.00
Elementary transportation,	1,050.00
Elementary tuition,	250.00
High school tuition,	900.00
High school transportation,	1,244.00
Books and supplies,	200.00
Repairs,	188.00
Janitors,	90.00
Fuel,	80.00
Health,	30.00
Superintendent's salary and travel,	778.00
Total,	<hr/> \$6,900.00

In closing, I wish to thank the school committee, teachers, and other citizens for their co-operation in the work of our schools.

Respectfully submitted,

CHARLES A. MILLER,

Superintendent of Schools.

MONTEREY FREE LIBRARY.

REPORT OF LIBRARY TRUSTEES.

During the past year we have been well patronized. Nineteen hundred and eighty-six books have been taken out, and one hundred and forty-three magazines. Many of these covered history, travel and general information.

Eighty-one new books were purchased and over forty books were given by interested friends, to whom we wish to express our thanks and appreciation.

Every available space in our library is now so crowded we feel the urgent need of a new building. We have three thousand dollars on hand and we would suggest an appropriation of seven thousand for the erection of a ten thousand dollar building.

MONTEREY LIBRARY TRUSTEES,
Julius D. Miner, Chairman.

J. L. TWING,

Auditor.

January 15, 1930.

REPORT OF SUPERINTENDENT OF SCHOOLS.

To the School Committee and Citizens of Monterey:

I herewith submit my fourth annual report of your schools.

It is expedient to repeat that the town of Monterey is fortunate in being able to retain two teachers of such high calibre as ours. Not only are they doing good, efficient work in the class-room with the fundamentals, but they take active interest in the outside activities of their pupils. The children are getting training, not only in the fundamentals, but also in art, sewing, cooking, music appreciation, and handwork. Of course we are greatly indebted to the 4-H club work for this broad program in our schools. The girls in the Center school get sewing at least 60 minutes a week. The pupils are also doing fine work in art. In the Corashire school at least two hours a week is given to special work, such as sewing, cooking and manual training. Music appreciation has been added to the offering. The children hear the Damrosch concerts over the radio. In the state-wide music contest put on the radio by the 4-H club, William Hall won first place and Matilda Moses second place. It is quite an honor and record to have the first two places taken by students from the Monterey schools. It is appropriate here to urge the importance of Boys and Girls Clubs in Monterey, such as the 4-H club. The club idea originated in the desire to recognize and serve the needs of youth. A school service to the future makers of America does not end with preparing them for working hours which occupy only a third of the day. It must also provide specifically for worthy use of the leisure. The club ideal is avocational, dramatic, and is based upon the doctrine of individual justice for all. Clubs have an immediate and deferred value. The formation of good habits now in the use of spare time; the provision in life for an avocation. It is not enough that a man make a living, he must enjoy living. When the time comes that every man is equipped with a hobby (worthy) there will be less discontent and crime in the world. Some reasons why the clubs are worth while:

1. The physical, mental, moral and social activities of the clubs are planned with one end constantly in mind—building character.
2. It provides clean, healthful recreation.
3. It trains pupils in vocational classes and teaches them the importance of work.
4. It develops honesty, modesty and thrift.
5. It develops civic pride.
6. It utilizes the youngster's spare time in most constructive ways.
7. It reaches boys and girls at the plastic stage, and retains its hold upon them to manhood and womanhood.

SCHOOL ATTENDANCE.

The Monterey Center school won the superintendent's prize for the best attendance for the school year, 1928-1929, with an average of 96.12 per cent. Corashire was close with an average of 96.09 for the year. The Tyringham schools also competed for this prize, which was a picture of "Lindbergh" and a picture of "The Lone Wolf." The average attendance for the school year for both schools was 96.1 per cent. This fall an attendance league, consisting of the schools in Monterey, Otis and Tyringham was formed. For the purpose of comparison, the standing in this league is as follows:

School	Per Cent.	Rank
Otis Center,	97.37	1
East Otis,	95.82	2
North Otis,	95.40	3
Corashire,	95.31	4
Monterey Center,	94.44	5
Tyringham Primary,	94.36	6
Tyringham Grammar,	93.17	7

The average for all the schools for the fall term of this school year is 95.12 per cent.

IMPROVEMENTS.

The interior of the Corashire school was painted, which makes this school attractive in every way. Slate blackboards have been provided for both rooms, which gives each school sufficient black-board space. New arithmetics were adopted, replacing our old ones which had been in use for many years. A greater variety of reading material is gradually being placed in our schools. It has been discovered that repetition deadens interest; that there are few school readers that can hold interest for more than one reading. Inasmuch as the rural teacher has so many different grades of pupils and so many different classes, it is good economy to give her the necessary tools with which to work.

RECOMMENDATIONS.

1. The adoption of new text-books in English. The books being used at present are inadequate and unsatisfactory.
2. Painting of the Center school building.
3. In-door flush toilets at the Center school. The pupils are now using the same toilets as the public use on public occasions. This is not safe for your children. It is impossible to keep the present out-door toilets clean and fit for the children. The only solution is in-door toilets. There is no question but what the people of Monterey will see the need of this change and support the school committee in their endeavor to remedy the situation.
4. Music supervisor.

FINANCES.

The amount of money needed to run our schools for the year 1930 is \$6000. We are also asking for a special appropriation of \$300 for toilets at the Center school. The entire cost of the maintenance of the schools does not fall upon local taxation as is shown by the list of reimbursements from the state.

Reimbursements:

Teachers,	\$ 350.00
Superintendent,	385.68
High school transportation,	788.90
Sandisfield tuition,	56.25
<hr/>	
Total,	\$1,580.83

The following budget is needed to run the schools for the year 1930, the amount to be distributed as follows:

Teachers,	\$2,190.00
Elementary transportation,	300.00
High school tuition,	770.00
High school transportation,	1,230.00
Books and supplies,	200.00
Repairs,	300.00
Janitors,	90.00
Fuel,	80.00
Health,	25.00
Superintendent's salary and travel,	715.00
<hr/>	
Total,	\$6,000.00

Special appropriation for toilets, \$ 300.00

In closing, I wish to thank the committee, teachers and other citizens for their co-operation in the work of the schools.

Respectfully submitted,

CHARLES A. MILLER,

Superintendent of Schools.

TOWN WARRANT.

COMMONWEALTH OF MASSACHUSETTS.

Berkshire, SS.

To Arthur S. Barnum, Constable of Monterey. Greeting:

In the name of the Commonwealth of Massachusetts, you are hereby commanded to warn the inhabitants of said town qualified to vote in said town affairs, to meet in the basement of the church, in said town, on Monday the third day of February, 1930, at ten (10:00) o'clock in the forenoon, then and there to act on the following articles, to wit:

Article 1. To bring in their votes to the election officers of the town for the following officers of the town: A Moderator, a Town Clerk, three Selectmen, an Assessor for three years, one School Committee for three (3) years, one Constable, one Tax Collector, one Town Treasurer, one Auditor, one Tree Warden, two Library Trustees for three (3) years, a Town Agent; and to bring in their votes, yes or no, on the question: "Shall license be granted for the sale of certain non-intoxicating beverages in this town?"

Article 2. To hear and act upon the reports of all officers, agents and committees of the town.

Article 3. To see if the town will accept the list of jurors presented by the selectmen.

Article 4. To appropriate money as follows, viz.:

Contingent expenses.

Support of poor.

Support of schools.

Salaries of town officers.

Maintenance of bridges.

Maintenance of highways.

Care of cemeteries.

Snow bills.

Monterey Free Library.

Building railing.

Cutting roadside brush.

Fighting fire in timber land.

Tractor expense.

Repair or removal of town scales.

Town signs.

Article 5. To see what method the town will adopt for the collection of taxes for the coming year, and fix the compensation therefor.

Article 6. To see if the town will authorize the Treasurer, with the approval of the selectmen, to borrow money in anticipation of taxes of the financial year beginning January 1, 1930, to an amount

not exceeding ten thousand dollars (\$10,000) and to give a note or notes therefor, payable within one year; any debt incurred under the vote to be paid from the taxes of said financial year.

Article 7. To see if the town will authorize the Agent to accept any parcel or parcels of real estate which the owners may be willing to deed to the town.

Article 8. To see if the town will vote to have a piece of state improved road and appropriate money for same.

Article 9. To see if the town will appropriate a sum of money for the up-keep of Bidwell Park.

Article 10. To see if the town will take any action to insure the town employees under the Massachusetts Compensation Act.

Article 11. To see what action the town will take in regard to fire protection.

Article 12. To see if the town will vote to raise a sum of money for road oil.

Article 13. To see if the town will vote to raise and appropriate a sum of money for public health nursing.

Article 14. To see if the town will vote to raise and appropriate a sum of money for school nursing.

Article 15. To see if the town will vote to raise and appropriate a sum of money for street lights.

Article 16. To see if the town will vote to raise and appropriate a sum of money for resurfacing roads.

Article 17. To see if the town will vote to raise and appropriate a sum of money for the erection of a new library building, consider plans and estimates submitted by the library trustees, and any business pertaining thereto.

Article 18. To see if the town will vote to repair the Langdon dam, so-called, in the village of Monterey, and raise and appropriate money for same.

Article 19. To see if the town will vote to raise and appropriate the sum of seventy dollars (\$70) to buy signs for marking the Appalachian Trail in Monterey.

Article 20. To see if the town will vote to raise and appropriate a sum of money for in-door toilets at Monterey Center school.

Article 21. To see what action the town will take in regard to the amount of eight thousand dollars (\$8,000) of the free cash in the treasury.

Article 22. To see if the town will vote to buy any fire apparatus and raise and appropriate money for same.

Article 23. To see if the town will vote to buy more snow fence, and raise and appropriate money for same.

Article 24. To see if the town will vote to build a stone wall railing at the reservoir, and raise and appropriate money for same.

Article 25. To see if the town will vote to allow the Town Board to appoint any member thereof to another town office or position for the term provided by law, if any, otherwise for a term not exceeding one year, and fix salary therefor.

Article 26. To appoint any committee or officers, and give them or any officer of the town, instructions, authority or indemnity, and transact any other business that may come before said meeting.

And you are to serve this warrant by posting attested copies thereof, according to the vote of the town, and of this warrant make due return to us, or one of us, on or before the time of said meeting.

Given under our hand and the seal of the town this sixteenth day of January, 1930.

(L.S.)

MONTEREY FREE LIBRARY

REPORT OF LIBRARY TRUSTEES

We have been much pleased with the patronage during the past year. Two thousand and fifteen books have been taken out and 209 magazines.

When we occupy the new building we are hopeful of buying more non-fiction books and of increasing the interest of the readers in worth-while things.

The basement of the new building can be used for recreational purposes and it is hoped some one will start something along this line.

We recommend an appropriation of \$500.00 for books, fuel, librarian, etc.

MONTEREY LIBRARY TRUSTEES,

Julius D. Miner, Chairman.

January 1, 1929, balance on hand	\$ 11.62

Monterey, Mass., January 2, 1931.

FIRE REPORT

At our last annual town meeting held February 3, 1930, \$1000.00 was appropriated and raised for fire apparatus, which with an allotment of \$249.00 from the state forest fire warden enabled us to purchase of the Fitzhenry-Guptil Co. a three-plunger portable fire pump, also 2000 feet of 1 $\frac{1}{2}$ inch hose and fittings, all of above highly recommended by Mr. Hutchins, state warden. This pump has a capacity of 30 gallons per minute, developing a pressure of 300 pounds if necessary.

After this equipment had all arrived we found it was not complete without a truck for transportation.

A. W. Tryon immediately wrote to Mr. and Mrs. A. J. Diefenderfer, summer residents of Monterey, and they gladly donated their old reliable Cadillac touring car, vintage of 1916, to be used as we saw fit, and with the aid of the boys and a few dollars worth of lumber, iron, bolts, paint, etc., we constructed a very satisfactory fire truck, with a reel carrying 1250 feet of hose and ample room for pump and accessories; also additional equipment which we hope to be able to secure in the near future.

At this time we have additional gifts as follows: thirty feet of extension ladder from Mr. F. H. Moses; one eight-inch white beam search-light from Miss Janet Waring; a hand-operated fire truck siren from B. B. Gottsberger and a sum of money from Harvey Thompson, to be used as needed.

To further improve our equipment we need six anti-freeze fire extinguishers, a fire axe, wrecking bar, a stack of pails and one hundred feet of three-quarter inch rope.

During the past year we have responded to ten calls to fires; three grass and forest fires and seven buildings or chimney fires.

I wish at this time to express my thanks, and I think I am, safe to say the thanks of the entire town, to Mrs. B. E. Tryon for telephone service she has rendered at times of fire calls, and state here that in case of fire call B. E. Tryon's, 164-3, and state the nature of the fire; then forget the telephone and fight the fire until we can get there and give you aid. One call is all that is necessary: Mrs. Tryon will do the rest.

Also I wish to thank the boys who have given their time to this work and are so quick to respond to any call. I am proud of the co-operation we have in this town and feel this is the keynote to our success.

Last, but not least, I wish to thank A. W. Tryon, who has given his time unstintingly in the construction of our equipment, has housed it all in his garage free of charge, sees that all is in running order at all times and as the time has now arrived when we need a fire chief I would suggest that at our annual town meeting, Feb. 2, the selectmen be instructed to appoint him to this position.

H. PERRY FARGO,

Forest Fire Warden.

REPORT OF SUPERINTENDENT OF SCHOOLS

To the School Committee and Citizens of Monterey:

I herewith submit my fifth annual report of your schools.

The citizens of Monterey should be pleased with the progress the teachers are making in their efforts to make their schools better week by week. Both teachers are experienced and understand the problems of their pupils. Individual help is given where needed and each student is allowed to go at his own rate of learning. The Stanford Achievement Tests have been given to better classify the pupils and to discover their weaknesses and superiority in the various subjects.

Six students are attending the Searles High school in Great Barrington and are doing credible work. This is evidence of excellent instruction in the elementary subjects.

Matilda Moses, 12, a pupil in Corashire school, won the State Music championship for 1930. She took second place in last year's contest, her schoolmate, William Hall, winning the state championship. In order to win this honor, the contestants had to recognize musical selections and their composers on hearing portions of the works played and each participant was required to write an essay on 'Appreciating Music.' Upon winning this contest, Miss Moses said:

"This is my second year in music appreciation and I have enjoyed it. If I had not taken it I feel that I would have lost a great deal. As it is, I think I am a better citizen of the world. Like Edward Bok I now want to 'Make the world a better place for my having been in it.'"

HEALTH

We are going to place greater emphasis on health teaching the coming year. We want to bring this instruction to the children during the formative period of their health habits. It is not wise to postpone health instruction till the child reaches the upper grades, for by that time a great many health habits have become crystallized. The main objectives of this health teaching are:

1. To train the child to have a clean body.
2. To develop habits of safety precautions.
3. To give the child some knowledge of healthful foods and drinks.
4. To get the child to realize the importance of wearing clean, tidy clothing.
5. To train the child in habits of correct posture.
6. To train the child to appreciate the importance of fresh air, sunshine, and pure water.

7. To establish habits of cheerful playing indoors and outdoors.

Fortunately our teachers furnish an object lesson in health. They obey the simple rules for healthy living. Health instruction in a school becomes mechanical, and without value, when the health habits of the teacher are not in line with her teachings. The teacher, herself, must set a good example for continuous practice in the ways of health. For five hours a day the bodies as well as the minds of the children are committed to the teacher for guidance and training, and the teacher shares with the home a responsibility for the formation of correct health habits.

The teacher will see that—

1. The school room is properly ventilated.
2. No cold drafts of air blow directly on the children.
3. The desks are arranged properly for the light to fall on the books.
4. The room presents an inviting appearance.
5. The desks fit the children.
6. The children wash their hands before eating their lunches.
7. The children spend the recess periods playing outdoors.
8. The very delicate children be given an opportunity to rest.

SCHOOL ATTENDANCE

The North Otis school won the superintendent's prize for the best attendance for the school year 1929-1930, in the Monterey-Otis-Tyringham Attendance League. The prize was a banner with the name of the school and the school-year written upon it. The average attendance for the school-year for both the schools was 92.75. For the purpose of comparison, the standing in this league for the fall term of this school year is as follows:

School	Per Cent.	Rank
Corashire	96.75	1
Otis Center	96.71	2
North Otis	96.30	3
Monterey Center	96.06	4
Tyringham Grammar	96.02	5
Tyringham Primary	95.91	6
East Otis	94.43	7

The average for all the schools for the fall term of this school year is 96.02 per cent.

SCHOOL BUILDINGS

The school buildings are in excellent condition. The biggest improvement made the past year was the installation of flush toilets in the Center school and also providing drinking water in the room. This room has also been painted. These changes have placed this school in first class condition.

FINANCES

The amount of money needed to run our schools for the year 1931 is \$5,900.00. A portion of this sum will be reimbursed from the state.

Reimbursements:

Teachers	\$ 350.00
Superintendent	337.15
High school transportation	709.45
Sandisfield tuition	31.00
Otis tuition	32.35

Total	\$1,459.95
-------	------------

The following budget is needed to run the schools for the year 1931, the amount to be distributed as follows:

Teachers	\$2,290.00
Elementary transportation	570.00
High school tuition	746.00
High school transportation	864.00
Books and supplies	200.00
Repairs	300.00
Janitors	90.00
Fuel	80.00
Health	25.00
Superintendent's salary and travel	735.00

Total	\$5,900.00
-------	------------

In closing, I wish to thank the committee, teachers and other citizens for their co-operation in the work of the schools.

Respectfully submitted,

CHARLES A. MILLER,

Superintendent of Schools.

TOWN WARRANT

COMMONWEALTH OF MASSACHUSETTS

Berkshire, SS.

To Arthur S. Barnum, Constable of Monterey, Greeting:

In the name of the Commonwealth of Massachusetts, you are hereby commanded to warn the inhabitants of said town qualified to vote in said town affairs, to meet in the basement of the church, in said town, on Monday the second day of February, 1931, at ten (10:00) o'clock in the forenoon, then and there to act on the following articles, to wit:

Article 1. To bring in their votes to the election officers of the town for the following officers of the town: A Moderator, a Town Clerk, three Selectmen, an Assessor for three years, one School Committee for three (3) years, one School Committee for two (2) years, one Constable, one Tax Collector, one Town Treasurer, one Auditor, one Tree Warden, two Library Trustees for three (3) years, a Town Agent; and to bring in their votes, yes or no, on the question: "Shall license be granted for the sale of certain non-intoxicating beverages in this town?"

Article 2. To hear and act upon the reports of all officers, agents and committees of the town.

Article 3. To see if the town will accept the list of jurors presented by the selectmen.

Article 4. To appropriate money as follows, viz:

Contingent expenses.

Support of poor.

Support of schools.

Salaries of town officers.

Maintenance of bridges.

Maintenance of highways.

Care of cemeteries.

Snow bills.

Monterey Free Library.

Building railing.

Cutting roadside brush.

Fighting fire in timber land.

Tractor expense.

Repair or removal of town scales.

Town signs.

Article 5. To see what method the town will adopt for the collection of taxes for the coming year, and fix the compensation therefor.

Article 6. To see if the town will authorize the Treasurer, with

the approval of the selectmen, to borrow money in anticipation of taxes of the financial year beginning January 1, 1931, to an amount not exceeding ten thousand dollars (\$10,000) and to give a note or notes therefor, payable within one year; any debt incurred under the vote to be paid from the taxes of said financial year.

Article 7. To see if the town will authorize the Agent to accept any parcel or parcels of real estate which the owners may be willing to deed to the town.

Article 8. To see if the town will appropriate a sum of money for the upkeep of Bidwell Park.

Article 9. To see if the town will take any action to insure the town employes, under the Massachusetts compensation act.

Article 10. To see if the town will vote to raise and appropriate the sum of \$15,000 for the improvement of the main highway to the village of Monterey from the end of the present improved road near the location of the Upham watering trough provided the State Department of Public Works and the county contribute amounts sufficient with the town appropriation to construct and pave the same.

Article 11. To see what action the town will take in regard to fire protection.

Article 12. To see if the town will vote to raise and appropriate a sum of money for public health nursing.

Article 13. To see if the town will vote to raise and appropriate a sum of money for school nursing.

Article 14. To see if the town will vote to raise and appropriate a sum of money for street lights.

Article 15. To see what action the town will take in regard to the amount of \$4000.00 of the free cash in the treasury.

Article 16. To see if the town will vote to buy more snow fence and raise and appropriate money for same.

Article 17. To see what action the town will take in regard to police protection.

Article 18. To see if the town will vote to join the South Berkshire health unit and raise money for same.

Article 19. To see if the town will vote to place electric lights in Center school room and raise and appropriate money for same.

Article 20. To see if the town will vote to complete the stone wall railing at reservoir and raise and appropriate money for same.

Article 21. To see if the town will vote to appoint a local game warden and raise a sum of money for same.

Article 22. To appoint any committee or officers and give them or any officers of the town instructions, authority or indemnity, and transact any other business that may come before said meeting.

And you are to serve this warrant by posting attested copies thereof according to the vote of the town, and of this warrant make due return to us or one of us on or before the time of said meeting.

Given under our hands and the seal of the town this thirteenth day of January, 1931.

H. PERRY FARGO,

R. C. BRETT,

E. G. HEATH,

Selectmen of Monterey.

ANNUAL REPORT

of the OFFICERS of the

TOWN OF MONTEREY

MASSACHUSETTS

FOR THE YEAR ENDING DECEMBER 31, 1931

1931

ANNUAL REPORT
of the OFFICERS of the
TOWN OF MONTEREY
MASSACHUSETTS

FOR THE YEAR ENDING DECEMBER 31
1931

THE BERKSHIRE COURIER PRINT
GREAT BARRINGTON, MASS.

REPORT OF STATE AUDIT.

December 7, 1931.

To the Board of Selectmen,
Mr. H. Perry Fargo, Chairman,
Monterey, Massachusetts.

Gentlemen:

I submit herewith my report of an audit of the accounts of the town of Monterey for the period from July 29, 1928, to September 29, 1931, made in accordance with the provisions of Chapter 44, General Laws. This report is in the form of a report made to me by Mr. Edward H. Fenton, Chief Accountant of this Division.

Very truly yours,
THEODORE N. WADDELL,

Director of Accounts

Mr. Theodore N. Waddell,
Director of Accounts,
Department of Corporations and Taxation,
State House, Boston.

Sir:

As directed by you, I have made an audit of the books and accounts of the town of Monterey for the period from July 29, 1928, the date of the previous audit, to September 29, 1931, and submit the following report thereon:

The financial transactions as recorded on the books of the several departments receiving or disbursing money for the town were examined, checked, and verified.

The books and accounts of the town treasurer were examined and checked in detail. The recorded receipts were compared with the records in the several departments collecting money for the town, and with the other sources from which money was paid into the town treasury, while the payments were compared with the orders of the selectmen authorizing them. The cash balance on September 29, 1931, was verified by an actual count of the cash on hand, by a reconciliation of the bank balance with a statement furnished by the bank, and by an examination of the savings bank book.

It was found that the selectmen do not sign school orders before they are paid by the treasurer, but give a single order at the end of the year for the total amount of school orders paid. This arrangement does not comply with the requirements of Section 52, Chapter 41, General Laws, which reads as follows:

All accounts rendered to or kept in the departments of any city shall be subject to the inspection of the city auditor or officer having similar duties, and in towns they shall be subject to the inspec-

tion of the selectmen. The auditor or officer having similar duties, or the selectmen, may require any person presenting for settlement an account or claim against the city or town to make oath before him or them, in such form as he or they may prescribe, as to the accuracy of such account or claim. The wilful making of a false oath shall be punishable as perjury.. The auditor or officer having similar duties in cities, and the selectmen in towns, shall approve the payment of all bills or pay-rolls of all departments before they are paid by the treasurer, and may disallow and refuse to approve for payment, in whole or in part, any claim as fraudulent, unlawful or excessive; and in that case the auditor or officer having similar duties, or the selectmen, shall file with the city or town treasurer a written statement of the reasons for the refusal; and the treasurer shall not pay any claim or bill so disallowed. This section shall not abridge the powers conferred on town accountants by sections fifty-five to sixty-one, inclusive.

It was noted that the treasurer enters in his cash book abatements of taxes as cash receipts and payments. It is recommended that this practice be discontinued and that only actual cash receipts or payments be entered on the cash book. It is further recommended that entries in the treasurer's cash book be made promptly upon the receipt or payment of money.

Small overdrafts of appropriations were found to have been incurred, when the appropriations, as listed from the town clerk's records of town meetings, were compared with the amount expended from each appropriation. To overdraw an appropriation is contrary to the provisions of Section 31, Chapter 44, General Laws, to which attention was called in the previous audit report, and which reads as follows:

No department of any city or town, except Boston, shall incur liability in excess of the appropriation made for the use of such department, except in cases of extreme emergency involving the health or safety of persons or property, and then only by a vote in a city of two-thirds of the members of the city council, and in a town by a vote of two-thirds of the selectmen.

The accounts of the tax collector were examined and checked. The taxes outstanding at the time of the previous examination were audited.

The warrants for all taxes committed subsequent to the previous audit date were verified. The recorded collections were checked and compared with the payments to the treasurer, the abatements were verified with the assessors' abatement records, and the outstanding accounts were listed and proved.

A further verification of the outstanding accounts was obtained by mailing notices to a number of persons whose names appeared on the books as owing money to the town, the replies received thereto, indicating that the accounts, as listed, are correct.

The recommendation made in the report of the previous audit, that the collector of taxes publish in the annual town report a

statement pertaining to the several tax levies committed to him for collection, has not been carried out.

The financial accounts of the town clerk were examined, and the receipts from dog and sporting licenses were checked with the records of licenses granted. The amounts paid to the county treasurer for dog licenses, and to the Division of Fisheries and Game for sporting licenses were verified. It appears that the clerk has not recorded on the stubs of sporting licenses issued under series No. 5, (reciprocal, non-resident sporting licenses), the amounts collected for such licenses, and has paid the state for these licenses on the basis of \$3.25 per license. The full amount collected should be noted on the license stub, and this amount, less the town clerk's fee, should be transmitted to the Division of Fisheries and Game, monthly.

The town clerk's cash is deposited in his personal bank account, a statement of which was received from the bank showing a sufficient balance on hand.

It was found that certain licenses granted by the selectmen have been issued by the town clerk, who retained the fees collected thereon. While the town clerk may issue licenses granted by the selectmen, when so authorized, the fees collected therefor should be paid into the town treasury as required by Section 53, Chapter 44, General Laws.

The accounts of the library treasurer were examined and checked. The recorded receipts were checked, the payments were compared with the bills on file, and the cash balance was verified with a statement received from the bank.

The report of the previous audit called attention to the fact that no record was found to indicate that the town has at any time passed a vote authorizing the election of a library treasurer and that the practice of turning over the library appropriations to the library treasurer is a violation of Section 35, Chapter 41, General Laws. There has, however, been no correction of the practice referred to, and the library treasurer, who is not bonded, has continued to receive and disburse library funds.

The accounts of the sealer of weights and measures were examined and checked, the receipts and payments to the treasurer being verified.

The surety bonds of the town clerk, treasurer, and collector, for the faithful performance of their duties, were examined and found to be in proper form.

The savings bank books representing the investment of trust funds in the custody of the town treasurer and the library treasurer were examined and listed. The income, bequests, and payments from the funds were found to be as reported.

The ledger accounts were compiled and analyzed, and a balance

sheet, which is appended to this report, was prepared showing the financial condition of the town on September 29, 1931. There are also appended, tables showing a reconciliation of the treasurer's cash, summaries of the tax and departmental accounts, as well as tables showing the transactions and condition of the trust funds.

For the co-operation received from all town officials during the process of the audit, I wish, on behalf of my assistants and for myself, to express appreciation.

Respectfully submitted,

EDW. H. FENTON,
Chief Accountant.

MONTEREY LIBRARY REPORT.

REPORT OF LIBRARY TRUSTEES.

It is encouraging to see the interest taken in the library during the past year. When we moved into the new building Miss Jones of the Division of Public Libraries for the state helped arrange and catalogue the books. Many have given books, and one gift was over fifty volumes. Other gifts were a new unabridged dictionary and reference atlas of the world, andirons and fire screen, desk lamp, pictures. We much appreciate the gifts and interest shown by the givers. Cabinets have been made to receive antiques and curios, and we are hopeful for such gifts or loans. The library has been open eight hours per week instead of four as last year. The circulation of books was 3285, which shows an increase of over 1000 volumes.

MONTEREY LIBRARY TRUSTEES,

Julius D. Miner, Chairman.

REPORT OF SUPERINTENDENT OF SCHOOLS.

To the School Committee and Citizens of Monterey:

I herewith submit my sixth annual report of your schools.

The most important work of the school and home is to care for the boys and girls. To give them a happy childhood and to equip them for a successful life, is the task with which we are confronted. Our task also is to give to every child the opportunity to grow up with a healthy body, a trained mind, and disciplined character, a cheerful faith in himself and a devotion to our form of government. The school and home are partners in a most precious trust.

There are many instances throughout the year of the happy alliance of home and school in Monterey. We saw it at town-meeting last February; at commencement in June; at the Thanksgiving and Christmas programs this fall term. The parents, upon visiting our school rooms, observe happy, healthy pupils, cheerfully busy at individual tasks in a clean and attractive environment. The parents have shown their keen interest in the work of their children by forming a Parent-Teacher Association. This organization has for its purpose, child welfare in relation to home, school and community.

SCHOOL ATTENDANCE.

There are twenty pupils enrolled in Center School and fifteen at Corashire. The number of students attending high school is the largest in many years. Out of forty-six Monterey students attending public school, eleven are enrolled in Searles High School.

The Otis Center School won the superintendent's prize for the best attendance for the school year 1930-1931, in the Monterey-Otis-Tyringham Attendance League. The prize was a framed picture of George Washington for the school room. The average attendance for the school year for both Monterey schools was 95 per cent. For purpose of comparison, the standing in this league for the fall term of the school year is as follows:

School	Per Cent.	Rank
Otis Center	98.18	1
Monterey Center	97.92	2
North Otis	97.78	3
East Otis	96.91	4
Tyringham Primary	95.94	5
Corashire	95.58	6
Tyringham Grammar	95.57	7

The average for all the schools for the fall term is 96.84 per cent.

MUSIC AND DRAWING.

The School Committee took a fine step forward when they decided to employ a Supervisor of Music and Drawing. The response received from the pupils in these special subjects proves the advis-

ability of placing them in our curriculum. The proper study of good music cultivates habits of accuracy, industry, perseverance and self-control. This subject may have a vocational value to some and will prove a vocational for all students.

There is no question but what drawing is a very necessary part of the school offering. Our aim in starting the drawing in the schools is to give the children an appreciation and a love for the beautiful in every-day living as well as in nature and in fine arts. I trust the parents will demand that music and drawing be continued in our schools. Elizabeth Hale, the special teacher employed for this work, has been teaching these subjects in Lee, and is well qualified for the position.

FINANCES.

The amount of money needed to run our schools for the year 1932 is \$6,953.20. This amount is \$933.20 more than was appropriated last year. This is due to the increased number of students attending high school and the employment of a music and drawing supervisor. We have to provide for eleven high school students this coming year, whereas last year the number was six. A portion of this sum will be returned to the town from the state.

Reimbursements.

Teachers	\$350.00
Superintendent	330.05
High school transportation	667.80
Tuition	
Total	\$1,347.80

The following budget is needed to run the schools for the year 1932, the amount to be distributed as follows:

Teachers	\$2,390.00
Elementary transportation	570.00
High school tuition	1,038.40
High school transportation	1,276.80
Books and supplies	200.00
Repairs	300.00
Janitors	90.00
Fuel	80.00
Health	25.00
Music and drawing	250.00
Superintendent's salary and travel..	733.00

Total \$6,953.20

In closing, I wish to thank the committee, teachers and other citizens for their co-operation in the work of the schools.

Respectfully submitted,

CHARLES A. MILLER, Supt. of Schools.

WARRANT.

COMMONWEALTH OF MASSACHUSETTS.

Berkshire, SS.

To Arthur S. Barnum, Constable of Monterey, Greeting:

In the name of the Commonwealth of Massachusetts you are hereby commanded to warn the Inhabitants of said town qualified to vote in said town affairs to meet in the basement of the church, in said town on Monday, the first day of February, 1932, at ten (10) o'clock in the forenoon, then and there to act on the following articles, to wit:

Article 1. To bring in their votes to the election officers of the town for the following officers of the town: A Moderator, a Town Clerk, three Selectmen, an Assessor for three years, one School Committee for three years, one Constable, one Tax Collector, one Town Treasurer, one Auditor, one Tree Warden, two Library Trustees for three years, a Town Agent; and to bring in their votes, yes or no, on the question: "Shall license be granted for the sale of certain non-intoxicating beverages in this town?"

Article 2. To hear and act upon the reports of all officers, agents and committees of the town.

Article 3. To see if the town will accept the list of jurors presented by the Selectmen.

Article 4. To appropriate money as follows, viz.:

- Contingent expenses.
- Support of poor.
- Support of schools.
- Salaries of town officers.
- Maintenance of bridges.
- Maintenance of highways.
- Care of cemeteries.
- Snow bills.
- Monterey free library.
- Building railing.
- Fighting fire in timber land.
- Tractor expenses.
- Town signs.
- Old age assistance.
- Police protection.
- Game warden.

Article 5. To see what method the town will adopt for the collection of taxes for the coming year, and fix the compensation therefor.

Article 6. To see if the town will authorize the Treasurer, with the approval of the selectmen, to borrow money in anticipation of

taxes of the financial year beginning January 1, 1932, to an amount not exceeding ten thousand dollars (\$10,000), and to give a note or notes therefor, payable within one year. Any debt incurred under the vote to be paid from the taxes of said financial year.

Article 7. To see if the town will authorize the agent to accept any parcel or parcels of real estate which the owners may be willing to deed to the town.

Article 8. To see if the town will appropriate a sum of money for the upkeep of Bidwell Park.

Article 9. To see if the town will take any action to insure the town employees under the Massachusetts Compensation Act.

Article 10. To see if the town will vote to raise and appropriate a sum of money to fix the drain near Grange Hall.

Article 11. To see what action the town will take in regard to fire protection.

Article 12. To see if the town will vote to raise and appropriate a sum of money for public Health nursing.

Article 13. To see if the town will vote to raise and appropriate a sum of money for school nursing.

Article 14. To see if the town will vote to raise and appropriate a sum of money for street lights.

Article 15. To see what action the town will take in regard to free cash in treasury.

Article 16. To see if the town will vote to raise and appropriate a sum of money to complete stone wall railing at reservoir.

Article 17. To see if the town will vote to allow the town board to appoint any member thereof to another town office or position for the term provided by law, if any, otherwise for a term not exceeding one year, and fix salary therefor.

Article 18. To see what disposition the town will make of the old library.

Article 19. To appoint any committees or officers and give them or any officers of the town instructions, authority or indemnity, and due return to us, or one of us, on or before the time of said meeting.

And you are to serve this warrant by posting attested copies thereof according to the vote of the town, and of this warrant make due return to us, or one of us, on or before the time of said meeting.

Given under our hands and the seal of the town this ninth day of January, 1932.

REPORT OF LIBRARY TRUSTEES

It is gratifying to see the interest taken in the library. Many much-appreciated gifts of books have been received from unexpected sources. Three thousand eight hundred and eighteen books and 170 magazines were taken out the past year, making a total increase of 527 over the year previous.

We are grateful to Miss Clara Morse for the desk lamp and beautiful picture painted by her father; to the late Doctor Phoebe Brown Payne for the picture over the mantel; and to Misses Waring and Gilman for the one of George Washington.

We would recommend an appropriation of four hundred dollars, the same as last year, to maintain the efficiency of the work.

Some of our citizens are asking about the reserve space for antiques. The cases under the counters at entrance are for this purpose and there is still space for loans or gifts.

Attention is invited to the short-time loan from the state of some books on social work and on the problems of children and youths.

MONTEREY LIBRARY TRUSTEES,
Julius D. Miner, Chairman.

WARRANT

COMMONWEALTH OF MASSACHUSETTS

Berkshire, ss.

To Arthur S. Barnum, Constable of the Town of Monterey,
Greeting:

In the name of the Commonwealth of Massachusetts, you are hereby commanded to warn the Inhabitants of said Town qualified to vote in said Town affairs, to meet in the Basement of the Church in said Town, on Monday, the sixth day of February, 1933, at ten (10) o'clock in the forenoon, then and there to act on the following Articles, to wit:

Article 1. To bring in their votes to the election officers of the Town for the following officers of the Town: A Moderator, a Town Clerk, three Selectmen, an Assessor for three years, one School Committee for three years, one Constable, one Tax Collector, one Town Treasurer, one Auditor, one Tree Warden, two Library Trustees for three years, a Town Agent; and to bring in their votes, yes or no, on the question: Shall license be granted for the sale of certain non-intoxicating beverages in the town?

Article 2. To hear and act upon the reports of all Officers, Agents, and Committees of the Town.

Article 3. To see if the Town will accept the list of Jurors presented by the Selectmen.

Article 4. To appropriate money as follows, viz.:

Contingent expenses.
Support of poor.
Support of schools.
Salaries of town officers.
Maintenance of bridges.
Maintenance of highways.
Care of cemeteries.
Snow bills.
Monterey Free Library.
Building railing.
Fighting fire in timberland.
Tractor expense.
Town signs.
Old age assistance.
Police protection.

Article 5. To see what method the Town will adopt for the collection of taxes for the coming year, and fix compensation therefor.

Article 6. To see if the Town will authorize the Treasurer, with the approval of the Selectmen, to borrow money in anticipation of taxes of the fiscal year beginning January 1, 1933, to an am-

ount not exceeding ten thousand dollars (\$10,000.00), and to give a note or notes therefor payable within one year. Any debt incurred under the vote to be paid from the taxes of said financial year.

Article 7. To see if the Town will authorize the Agent to accept any parcel or parcels of real estate which the owner may be willing to deed to the Town.

Article 8. To see if the Town will vote to raise and appropriate a sum of money for the upkeep of Bidwell Park.

Article 9. To see if the Town will take any action to insure the town employees under the Massachusetts compensation act.

Article 10. To see what action the Town will take in regard to fire protection.

Article 11. To see if the Town will vote to raise and appropriate a sum of money for public health nursing.

Article 12. To see if the Town will vote to raise and appropriate a sum of money for school nursing.

Article 13. To see if the Town will vote to raise and appropriate a sum of money for street lights.

Article 14. To see what action the Town will take in regard to free cash in treasury.

Article 15. To see if the Town will vote to allow the Town Board to appoint any member thereof to another town office or position for the term provided by law, if any, otherwise for a term not exceeding one year, and fix salary therefor.

Article 16. To see if the Town will vote to buy a new ballot box, and raise and appropriate money for same.

Article 17. To see if the Town will vote to have a piece of state-improved road under Chapter 90, and raise and appropriate money for same.

Article 18. To see if the Town will vote to cut the dead willows along the reservoir, and raise and appropriate money for same.

Article 19. To appoint any committees or officers and give them or any officers of the Town instructions, authority, indemnity, and transact any other business that may come before said meeting. And you are to serve this warrant by posting attested copies thereof according to the vote of the Town, and of this Warrant make due return to us, or one of us, on or before the time of said meeting.

Given under our hands and the seal of the Town this seventeenth day of January, 1933.

H. P. FARGO,

R. C. BRETT,

E. G. HEATH,

Selectmen of Monterey.

REPORT OF SUPERINTENDENT OF SCHOOLS

To the School Committee and Citizens of Monterey:

I herewith submit my seventh annual report of your schools.

"The school is the author of national ideals, the moulder of the soul of America; it is not a luxury that we can afford only in prosperous times."

The road to success is becoming increasingly difficult for the self-educated man. The occasional Lincoln type may rise once in a while in spite of the lack of formal school training, but in the future this type will be very rare. On the other hand, when we see the best product of our schools placed upon the balance of life we find many of them wanting. Naturally we are concerned whether our schools fit boys and girls to become a part of our complex and fast-changing society. Therefore, should we not plan for better and better schools to enable our pupils to live properly in a changing world? It is encouraging to know that the people of Monterey are interested in the future welfare of their children and will make many sacrifices to give them the best opportunity possible.

ENROLLMENT AND ATTENDANCE

There are twenty-four pupils enrolled in the Center school and fourteen at Corashire. There are seven students attending high school. No doubt there will be more at the opening of school next fall.

We want to urge the parents to see that their children are in school every day, provided they are not ill. We would also appreciate being informed of the reason for absence. It is one of the rules and regulations of our school department to ask the parents to send a written excuse along with the child who has been absent from school. The teachers are simply carrying out the orders of the superintendent and the school department when they put this ruling into effect. We can give our best to the welfare of the child only when we have the full co-operation of the parents and know what the child is doing every school day, whether at home or at school.

The Otis Center school won the Superintendent's Prize for the best attendance for the school year 1931-1932 in the Monterey-Otis-Tyringham Attendance League. The prize was part payment toward an electric radio for the school. The average attendance for the school year for both Monterey schools was 94.52 per cent. For the purpose of comparison, the standing in this league for the fall term of this school year is as follows:

School	Per Cent.	Rank
East Otis	98.52	1
Corashire	97.83	2

Tyringham Grammar ...	96.79	3
Otis Center	95.37	4
Monterey Center	94.93	5
Tyringham Primary	94.53	6
North Otis	92.61	7

The average for all the schools for the fall term is 95.77 per cent.

HEALTH

I know no better way of informing the people concerning our health program than by enclosing the report from Miss Charlotte L. Cornwell, the school nurse. This is an excellent report and I hope the people will read it carefully.

"It gives me great pleasure to submit herewith the following report of school nursing in the town of Monterey for the year ending December 31, 1932:

Total visits to schools	69
Number of class-room inspections of children	31
Number of sanitary inspections	3
Number of consultations with teachers	14
Number given physical examinations by physician ...	35
Number with defects noted	1
Number of visits to homes of school children	19
Number of school follow-up visits	32

"School visits were made for general inspection, weighing, eye examinations and assisting the school physician with physical examinations.

"During the year 1932 home visits were made for the purpose of furthering co-operation among the parents, the teachers and the school nurse; to investigate absentees; to follow up defects noted at the time of physical examinations by Dr. Markham and the dental clinic conducted by Dr. Whitehead. At the time of the physical examinations only one defect was noted, which is an extremely fine record for the number of pupils attending school. This child is under the care of a physician. At the time of the eye examination only one eye defect was noted and this one is under the care of the eye specialist.

"Child Health Day was observed on May 27th by the carrying out of various health programs in the schools. Seven physically-fit tags were awarded. These tags were given to those children bringing their certificates from their dentists and also having a certificate from the school physician. These certificates indicated that all necessary corrections had been made.

"Dental clinic report. The dental clinic made it possible for children to have dental work done who had not been to the family dentist. Seventeen school children attended the dental clinic. This

figure represents one-half the total number of school children enrolled at the time the clinic was held. Thirteen dental certificates were received.

"It is said that diet plays a part equally important as the dentist's work in maintaining the condition of the teeth. This phase is still in its infancy and during the ensuing year it is the wish of our staff to have it further developed.

"Your co-operation is solicited at the next dental clinic to be held within the next six months.

"Physical examinations of pre-school children were held previous to the opening of the public schools, at which time only two availed themselves of the opportunity. It is the desire of the school superintendent and the school nurse to have all pre-school children examined and defects corrected before the opening of the next school year. We advocate having all children vaccinated against small-pox and immunized against diphtheria previous to entering school."

POLICIES AND CURRICULUM

We are continuing the policy of using standardized tests only in cases of doubt as to individual needs and classification. We urge the parents to visit the schools; observe the work of their children, and assist the teacher in understanding them. Enthusiasm and progress in music and art is quite evident from results observed and from the report of Elizabeth Hale, the teacher.

"During the year the course in drawing was followed as last year. Marked progress has been made in nature drawing, color harmonies, and holiday projects.

"It has been our aim in art instruction to teach the children the modern art creed, 'To live more fully.' We are endeavoring to open their eyes to an appreciation of beauty in nature, in the schoolroom, in their homes, and in themselves.

"We also teach them to create with their hands. Just as the primitive man moulded his clay and smiled when the thing took form under his fingers, a child enjoys making his picture and taking it home to 'show mother.'

"The pupils are making good progress in free-hand drawing, coloring, printing, construction work, and lettering.

"There has been no decided change in the music program during the past year. Each school has been visited once in two weeks for music. A special effort is being made to improve the sight reading. Reading music is not easy. Long and persistent effort is required to acquire skill. In almost every class an improvement has been made, but more might be accomplished if we had music readers.

"Both in drawing and music progress has been made possible only through the splendid interest and co-operation of the teachers."

FINANCES

Inasmuch as we are passing through what seems to be an unusual period of depression, the School Committee made every effort to exercise prudence and economy in administering the schools. Through careful spending they were able to turn back to the treasury the sum of \$164.33. The amount of money requested for the year 1933 is \$6,800.00. This sum was decided upon only after very careful study, economizing wherever possible. This amount is \$200.00 less than we received last year. A portion of this sum will be returned to the town from the state.

REIMBURSEMENTS

Teachers	\$ 350.00
Superintendent	329.56
High school transportation	1,077.00
Tuition, Sandisfield	

Total	\$ 1,756.56
-------------	-------------

The following budget is needed to run the schools for the year 1933, the amount to be distributed as follows:

Teachers	\$ 2,400.00
Elementary transportation	900.00
High school tuition	1,000.00
High school transportation	1,100.00
Books and supplies	122.00
Repairs	100.00
Janitors	90.00
Fuel	80.00
Health	25.00
Music and drawing	250.00
Superintendent's salary and travel	733.00

Total	\$ 6,800.00
-------------	-------------

In closing, I wish to thank the committee, teachers, and other citizens for their co-operation in the work of the schools.

Respectfully submitted,

CHARLES A. MILLER,

Superintendent of Schools.
